EURYTHMY

Making Visible the Foundation Stone Meditation

Rudolf Steiner introduced the Foundation Stone Meditation at the Christmas Conference in 1923. On Easter Sunday April 20th 1924, the Foundation Stone Meditation was performed for the first time in Eurythmy with forms, lighting, costumes, and gesture indications provided by Rudolf Steiner.

Five years ago work began on the Foundation Stone Meditation by eurythmists Heike Houben, Brigitte Fischer, and Kimberle Haswell and later supported by Uta Stoll-Kuwilsky. Upon this beginning Hestia Eurythmy has steadfastly continued with an ensemble of dedicated community members and it now wishes to share the Foundation Stone Meditation in Eurythmy in honour of the Centennial.

Hestia Eurythmy Group are sharing the Foundation Stone Meditation in Eurythmy throughout Aotearoa New Zealand. They welcome invitations to perform and appreciate donations to share this work in the wider community.
