ANTHROPOSOPHICAL SOCIETY OF NEW ZEALAND

1st – 3rd January 2027

Mysteries of the Human Skeleton

Internationally renowned speaker Ken Smith will facilitate a process to enter the forces and archetypes that shape the inner world of the human skeleton. From the forms, movements and metamorphoses within the skeleton we can begin to perceive the way the human has given form to this substance. Shaped between the duality of cosmic light and earthly gravity, the architecture of the skeleton maps the spaces inhabited by the human soul.

Perfect for a wide audience including students, teachers, artists, nurses, medical professionals, therapists, Eurythmists, Biodynamic folk and parents, this workshop will transform how you view the "frozen light" of human anatomy.

VENUE

Waikato Waldorf School

85 Barrington Dr, Hamilton

Cost: $170

ABOUT KEN SMITH

Ken has been the Director of the Bay Area Centre for Waldorf Teacher Training in San Francisco since 2014. He was active for 11 years in the TED circle (teacher education) of AWSNA and is currently a member of iArte (medical section of the Goetheanum). Since 2013 he has collaborated with a Waldorf inspired Andean indigenous school in Peru and with colleagues there is developing an Indigenous Waldorf Teacher program. In 2022 he co-founded the Healing through Art 3-year Anthroposophical artistic therapy program. Before this Ken studied at Emerson College, England, taught in Waldorf schools in England, and was Co-Director of the Visual Arts and Sculpture program at Emerson for 8 years. He teaches internationally in Waldorf schools, adult education programs, and conferences. Through his combination sculptural, artistic and Goethean approach he has taught the Waldorf anatomy main lessons many times in Class 7 and 8, and lead many adult workshops on anatomy – the skeleton, the organs, and larynx.

It is a privilege to host Ken here in Aotearoa, NZ and to have the opportunity to deepen this work.
